But Wait there are More revenue channels . . .

Because Biochar removes atmospheric CO2 and permanently stores as Carbon, we can also claim Carbon Removal Credits CORCS (available from Puro.Earth on NASDAQ) we have two revenue streams. Currently Carbon Removal Credits. AND for every ton of Biochar produced payments have a multiple of up to 3 times* For every ton of Biochar made up to 3 tons of CO2 can be removed from the atmosphere, and paid for. Currently, CORCS on NASDAQ have a current value of around \$140USD* if we base our Biochar value at x2.5, that means for every ton of Biochar we could have CORCS paid from ESG compliant corporations valued at around \$350 (about \$280 after exchange fees).
